

Robert LeFort

President of International Rectifier and of Infineon Technologies North America

- Born on April 30, 1961
- in Nova Scotia, Canada
- married, 2 children

Robert LeFort holds an MBA from Boston University and a Bachelor of Science for Electrical Engineering from the University of Massachusetts at Lowell.

LeFort joined Infineon as Vice President Automotive and Industrial Business in 2000 and was appointed as President of Infineon Technologies North America in June 2002. Prior to that, LeFort served as a Customer Manager at Delphi Corporation, a Tier One automotive electronics supplier, and held positions at Cherry Semiconductor (now a subsidiary of ON Semiconductor), Unitrode Corporation, and Analog Devices.

In April 2006, he joined Ember Corporation as President and CEO and became General Manager for the Wireless Mesh Business at Silicon Labs in July 2012, when the company acquired Ember.

Robert LeFort returned to Infineon in April 2013 as Corporate Vice President Strategy and M&A based in Munich.

In January 2015 Robert LeFort was appointed as President of Infineon Technologies North America and of International Rectifier Corporation.
